Nov. 23rd, 2024 Nov. 24th, 2024

Online (Tencent Meeting) and offline (Wuhan University of Technology, Wuhan City, Hubei Province)

Green Responsibility and Sustainable Innovation

1. Technological Innovation and Business Ethics
2. Technology Innovation for Sustainable Development
3. Innovation and Strategy Management
4. Innovation and Entrepreneurship
5. Accounting and Innovation
6. Financial Technology and Innovation
7. Big Data and Business Intelligence
8. Risk Management and Decision Analysis
9. Organizational Behavior and Human Resource Management
10. Marketing Engineering and Service Science
11. Systems Engineering and Knowledge Management
12. Supply Chain and Operations Management
13. Social Governance and Sustainable Development
14. Integrated Topics

2. Selecting excellent papers, setting up several first prizes, second prizes and third prizes, and awarding certificates.^B

Each paper to be included and published in the **Proceedings of ICDM 2021** (1-11 pages) and is charged 2,500 RMB of editing and layout fee. Excess page charge is 300

Management System Engineering

Published online: 2024
Open access

Check for updates

- Present new developments, theory and practice to improve the performance of management system
- Dedicated to design, modelling, optimization, simulation, computation, and data analytics.
- Offers high visibility for your work with free APC sponsored by Wuhan University of Technology

Editors-in-Chief

Xiaofang Chen, Lida Xu

Executive Editor

Wenbin Li

Aims and scope

Management System Engineering (MSE) is a peer-reviewed scholarly journal dedicated to the methodology of System Engineering (SE) and the practice of Management Decision

computation, and data analytics for identifying and solving management problems;

the journal is required reading for all those concerned with the development of systems and the management of complex systems. The journal is required reading for all those concerned with the development of systems and the management of complex systems. The journal is required reading for all those concerned with the development of systems and the management of complex systems.

- The journal is required reading for all those concerned with the development of systems and the management of complex systems.
- The journal is required reading for all those concerned with the development of systems and the management of complex systems.
- The journal is required reading for all those concerned with the development of systems and the management of complex systems.

Paper Title in Chinese

Confirmation of Conference Attendance Yes No

Topic classification (1 10):

**Thank you for your interest and participation in this conference.*

The paper should consist of the following parts in the right order:

Title → author's name → author's affiliations → abstract → key words →
introduction → main text → conclusion → references

2. All figures and tables must be included in-line with the text. Words in figures and tables must be printed in the required typeface and font size.
3. Table headers should be above the tables and centered. Figure captions should be below the figures and centered. Serial numbers of these figures, tables and formulas should be placed in order.

References must be more than ten entries and the information should be listed in strict conformity with the required sequence: [Serial number] Author's name. Title of the Book/Article [Literature type]. Publishing House/Journal Name, the year of publication: page numbers

Note: ① It needs to be indicated in brackets when the reference is in Chinese. ② As for literature types, [J] is for journal, [M] for monograph or book, [N] for newspaper, [D] for academic dissertation, [R] for report, [P] for patent documentation.

For example:

- [1] Aluminum. A Market Approach to Energy Conservation[J]. Journal of Consumer Affairs, 2002, 16(3):300-317
- [2] Hooper, J. Nielsen, Andrew Whinston. Recycling as Altruistic Behavior: Normative and Behavioral Strategies to Expand Participation in a Community Recycling Program[J]. Environment and Behavior, 2002, (23):195-201
- [3] Xie Kefan, Cheng Guoqing. A Model of Recycling Behavior, with Evidence from Danish Source Separation Programmers[M]. Wuhan: Press of Wuhan University of Technology, 2003:78-90 (In Chinese)

5. The references should be marked in the form of (author, year) in the text of the paper.
6. Sponsorship or support for the paper should be included in Acknowledgements, which is placed before Reference, after Conclusion.
7. Each paper should be of at least 4 pages.
8. The email of each author should be provided and listed at the right place.
9. Abstract should be more than six lines, which introduces the research methods, opinions, conclusions and creative ideas, not just an introduction of background. The following sentence patterns can be taken as an example: This paper employs (approach), presents , implies , set up , draw the conclusion . At least 4 key words should be attached.
10. The first part of the main text must be Introduction , which introduces overseas and domestic research status. The final part of the paper is Conclusion , which summarizes the paper and proposes suggestions and expectations for the future research.

1. Font: Times New Roman for the whole paper

2. Size: 14-point font, bold and centered for paper title; 12-point font, bold for the first-class titles; 10-point font, bold for the second-class titles; 10-point font for third-class titles and the main text; 9-point font, bold and centered for titles of figures and tables; 9-point font for words and notes in figures and tables.

3. *Italicize* the variables in English and Greek in mathematical formulas. Leave the ratios in normal font.

Software environment: Microsoft Windows 7 or the above versions. (Check the Sample Paper for Conference Proceedings).

 \mathcal{N}

*the authors' names, city, and their
emails should be 10-point font, and
placed in the middle*

School of Management, Wuhan University of Technology, Wuhan,

3

3.1

10-point font, bold, no capitalization for second-class titles

*Figure contents should be 9-point font,
Times New Roman*

*9-point font, capitalized, bold for
the captions of figures, and centered
below the figures*

1

Leave one line under each figure

3.1.1 Discussing about method one

10-point font, no capitalization for third-class titles

3.2

Leave one line above each first-class titles

4

12-point font, capitalized, bold for first-class titles

Leave one line above each first-class titles

5

12-point font, capitalized, bold for first-class titles
